Aesthetically speaking, sometimes less is more

Azulle's Byte3 is designed to keep up with today's ever-evolving mini-PC user and the multi-tasker that needs to get it all done - and done now. Azulle powers the Byte3 with a 64-bit Quad-Core Intel Apollo Lake processor making the Byte3 not only lighter but more powerful. The Byte3 is the feather-weight champion of fast, functional, user-friendly and affordable technology.

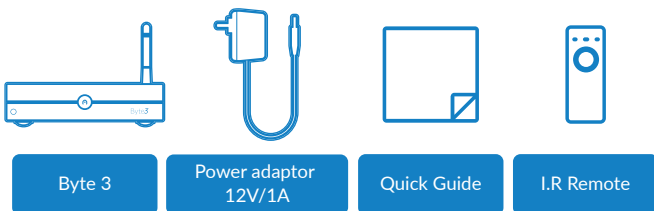

Advanced mini PC technology that combines more with less

The newest innovation in the Azulle line of mini PCs, the Byte3 is lighter, sleeker and thinner, with a processor that is more powerful and faster than its predecessor.
