Access Plus Video

**Operating System:** The Access Plus mini PC stick comes preloaded with Windows 10 64-bit operating system. With a quad core processor, 2GB of DDR3L RAM (4GB optional), 32 GB of onboard storage, and a micro SDXC card slot providing up to 128GB of storage, makes it a smooth experience toggling between various programs.

**Portability:** Don't let the size fool you, the Access Plus may be compact, but it can do anything a full size computer, laptop, or tablet can do in a fraction of the size. Designed for productivity and entertainment the mini PC stick can be hooked up to any TV, monitor, or projector making it easy to move from room to room and great for traveling, dorm rooms, classrooms, conference rooms, home use, offices, and anywhere else with WIFI and a screen connection. In other words, sit back, relax, and let the Access Plus do all the work from the comfort of your couch, bed, office chair, or hotel room.

**Internet Access:** Azulle made sure with the Access Plus that getting online and staying online would be hassle-free. Not only does this compact PC stick come with dual band WI-FI, but it also includes an Ethernet port. Users can connect the Access Plus directly with the LAN connection or use the high speed wireless connection.

**Compatibility:** With the Access Plus mini PC stick users can connect compatible USB devices such as keyboard, mouse, printer, camera, or external hard disk as well as form a direct internet connection with its Ethernet port.
