The Access3 provides the customizability needed to enjoy all its perks in your very own style. This mini PC stick with Windows 10 is available with the options of 2GB RAM/ 32GB Storage or 4GB RAM/ 32GB Storage; but includes a Micro SD card slot to let you add extra memory space if needed. This helps make sure you're able to accomplish and carry all your files.

The Access3 is loaded with Windows 10 Pro, 64-bit operating system so you can carry your work inside your pocket.

Compatible with HDMI enabled TVs, monitors and projectors; making it great for traveling, dorm rooms, classrooms, conference rooms, offices and home use. Equipped with Dual-band WiFi and Gigabit Ethernet port for high-speed downloading, launching applications, and streaming.

Enjoy 4K quality without buffering while surfing the web or running apps like Netflix, Youtube, Amazon Prime, and more.

Use the Access3 as your versatile business solution. Power your video conferences, digital signage, kiosks, and more.

Connect compatible devices such as keyboard, mouse, printer, camera, or external hard drives to create a personalized workspace or media center via USB ports or Bluetooth.

Solutions

DIGITAL SIGNAGE

Control networks from anywhere, at any time.

IoT

Develop automated business operations and smarter homes.

KIOSKS

Rapidly download, deploy, and interact with applications
