

INSPIRE

Fanless Mini Barebone PC

Build To Create. Create To Inspire.

The Inspire is Azulle's most powerful fanless mini PC. Configured with Windows 10 Pro for unprecedented performance and responsiveness. It can handle a range of uses and fit into any environment, from business to home entertainment. Get the performance you need to stream media, edit photos, or complete complex tasks. Maximize your workspace with the full power and dependability of a desktop. Connect your Inspire using dual-band Wi-Fi or Ethernet and create a wireless setup by pairing your accessories and other compatible devices with Bluetooth.

Includes a customizable board that accepts your desired operating system, as well as additional memory and storage.

Equipped with HD Graphics 620, producing 4K graphics streaming at 60 frames per second.

Available with Bluetooth 4.0, allowing you to pair compatible devices and accessories to your Inspire.

Features a serial port making it compatible with legacy hardware.

Offers three variant processors: Dual-Core Intel Kaby Lake i7, Dual-Core Intel Kaby Lake i5 and Dual-Core Intel Kaby Lake i3

Product Specifications
