

## DIGITAL SIGNAGE AT YOUR CONTROL

In order to achieve the benefits of digital signage, it is essential to have a quality hardware that could withstand long days of work to propel your business. Azulle offers versatile solutions for digital signage. Our solutions are built for demanding environments and applications with outstanding performance, durability, reliability and flexibility. In 2016, Azulle pioneered the first fanless mini PC stick into the market. The fanless design extends product life and provides continuous high-power performance. All of our customizable mini PCs support a variety of operating systems and your choice of RAM and storage.

### INDUSTRIES

#### TRANSPORTATION

- ▶ Relieve stress and provide real-time information such as departure and arrival times.
- ▶ Use wayfinding to display directions to terminals and baggage claim.
- ▶ Display local information like weather, news, tourist activities.

#### ENTERTAINMENT

- ▶ Create the ultimate fan experience with interactive video walls, wayfinding kiosks, and more.
- ▶ Add self-service ticketing kiosks for faster checkout experience.
- ▶ Display ticket pricing with promotions and upsell game/event merchandise.

#### HOSPITALITY

- ▶ Information on amenities such as pools and fitness center as well as upsell additional services.
- ▶ Add a modern element to your business with dynamic displays to attract audience's attention.
- ▶ Remotely manage updates of in-store promotions and sales change menus easily.

#### RETAIL

- ▶ Create memorable in-store shopping experiences with interactive digital signs.
- ▶ Influence buyers purchase decisions with digital signage at point of purpose.
- ▶ Wayfinding displays to show shoppers how to get to search for stores and products.

### OUR PRODUCTS

Each is compatible with a wide range of software and hardware options. The small form factors of each PC gives you the ability to discreetly connect to any HDMI device to display your content in 4K resolution. With a defect rate less

than 1%, Azulle has proven to provide quality products capable of meeting all business and digital signage needs. Customize your hardware to create the perfect solution for your business.

### TESTIMONIAL

We deploy Azulle's Access 3 to provide telephony data wallboard information at our clients premises. We display this data to monitor call centre productivity and volumes such as incoming and outgoing telephone traffic and average answer time.
